GOES TO PENITENTIARY ON SECOND CONVICTION

Richmond Negro Twice Had Liquor In Possession For Sale—Circuit Court Works Fast Today

One of the few times, at least in this section of the state that violation of the local option laws has resulted in penitentiary sentence, was witnessed in Madison circuit court this morning. On his second conviction for having liquor in his possession for the purpose of sale, James Alverson, colored, was sentenced to a year in the penitentiary at Frankfort. About a year ago Alverson served a term in jail here for the same offense.

Circuit Court has been very busy today and Judge Shackelford has kept things moving. The day was taken up practically entirely with the criminal docket.

Carlo Lunsford, convicted of carrying a deadly weapon concealed, was fined \$50 and given 10 days in jail and disfranchised from voting.

George Martin was fined \$100 and costs in three cases, on charges of having permitted minors to play pool. The minors named in the warrants were Irvine Hisle, Goebel Peyton and Clay Moberly.

Joe Hunley charged with unlawfully taking a buggy from Burton Roberts, was fined \$20 and costs.

Doc Meeks charged with assaulting Jake Tussey was fined \$20 and costs. Jake Tussey was fined \$2 for contempt of court when he attempted to compromise the case, and stopped a witness.

George Foley was fined \$25 and costs for unlawfully taking silverware etc., from Mrs. Richard Miller's home.

Curt Moore, a Richmond negro, was given \$100 fine and 40 days in jail each in two cases for unlawful sale of liquor and fined \$100 and given 50 days in jail for having liquor in his possession for the purpose of sale.

Leslie Phillips, a negro, who shot at Policeman Worrell, was fined \$50 and given six months for "shooting in sudden heat and passion."

Jack Hazelwood was fined \$15 and costs for hunting without a license.

Henry Tye, colored, was charged with having stolen three fine mink hides that M. Wides was saving for a neckpiece, was given eight months in the county jail.

Owen Walker, a well known local colored man, was acquitted on a charge of having sold liquor to Kate White, also colored. Walker had thrown the woman out of his restaurant when she became rowdy and witnesses testified she said she would "turn him up" for it.

Morrow Speaks On Washington Saturday

One of the great problems of the schools of the future is to teach a robust Americanism. With this thought in mind, the chapel committee at the Normal has planned to celebrate the birthdays of great American men and women. During the present month, the birthdays of Presidents Roosevelt and Lincoln, have been observed; the address at the exercises of the one was delivered by Dr. Carpenter, of the Christian church, at the other by Dr. Telford, of the Presbyterian church, himself a son of the south.

The Washington Birthday address will be delivered Saturday evening, beginning at 7:30 by Hon. Edwin P. Morrow, of Somerset. The chapel will be decorated and good music will be rendered. A great address is expected from Mr. Morrow. The people of Richmond are invited to be present to participate in these exercises.

COLDS AND FLU BEST TREATED WITH CALOTABS

The New Perfected Calomel That Is Free From Nauseating and Salivating Effects.

Physicians or druggists will tell you that the best thing in the world for a cold, gripe or influenza, is Calotabs, the perfected calomel, that is free from nauseating and salivating effects. Doctors have learned that other laxatives are uncertain and unsatisfactory for cold or gripe, but that they can count on Calotabs, the new calomel, that has all the liver benefits and none of the sting, to thoroughly arouse the liver and put the system in ideal condition to throw off the cold and prevent influenza and pneumonia.

The best time to take Calotabs is at the first sign of a cold. If you take it at the beginning you can cure a cold over night. One Calotab on the tongue at bed time with a swallow of water—that's all. In the morning you wake up feeling fine with a hearty appetite for breakfast. Your cold has vanished and you may congratulate yourself that you have possibly prevented serious complications, for physicians tell us that neglected colds number their victims by the millions.

For your protection, Calotabs are sold only in original sealed packages, price 35 cents. Your druggist will supply you, and your money given back promptly and cheerfully if you are not delighted with this new form of calomel.

STUPENDOUS AMOUNT OF MONEY REQUIRED

If Huns Are To Be Asked To Pay Allies' Costs of War—Clemenceau Now Out of Danger.

(By Associated Press)
Paris, Feb. 21—Premier Clemenceau's condition this forenoon is announced as satisfactory as possible under the conditions.

A member of his household previously said he will be out of danger within 48 hours.

The bullet which wounded Premier Clemenceau penetrated his lungs, it was revealed by the official statement.

The official statement reads: "The hemorrhage which occurred at one o'clock yesterday demonstrated that the bullet penetrated the lungs. An X-ray examination disclosed the precise location of the bullet. The general condition is satisfactory. Temperature 98.4; pulse 72; nourishment is normal."

After the X-ray examination had been completed Premier Clemenceau walked out on the balcony of his house, overlooking the garden, to take a breath of fresh air. The morning was a delightful one, the first real spring day. The Premier seemed vigorous, although he spat a little blood.

Later today the doctors considered Clemenceau out of danger and authorized the Supreme Council at his home this afternoon to discuss certain important matters. His physicians believed he could resume his political activities today.

Meanwhile speed is being made by the special commission of peace council determining the huge amount the enemy will have to pay for reparation. This is taking such form that it may have to be referred to the heads of the various governments, owing to the seriousness of the main issues presented. This turns principally on whether the cost to the various countries in conducting war will be included in the claim for reparation for damages. The total sum would swell the aggregate to a sum so stupendous that doubts are raised concerning Germany's ability to meet it.

McDougle's Board At Work

The State Textbook Commission, of which Prof. E. C. McDougle, of this city, is a member, has come to the conclusion after careful comparison of the new law with the old and consultation with the Attorney General that it may change as many of the textbooks in use in the common schools and high schools as it chooses in not more than 50 per cent of the subjects.

This gives the commission the right to change possibly as many as 80 per cent of the books now in the schools, because certain subjects have more textbooks than others. Gov. Stanley however, has openly stated that he believes the commission should make as few changes as possible.

The commission continues to meet in executive session, as required by law, to adopt the various books.

SOME QUESTION, THIS

Suppose you were just married. Suppose you were looked upon as one with high social standing, and you had promised to love, honor and provide for one of your father's working girls, without his knowledge. Suppose your father found it out and forced you to separate from your wife. Suppose your cousin, who is in love with you, tells you that your wife has been seen at twelve o'clock at night saying goodbye to one of the most widely known rogues of the city. Suppose you later found your wife in his arms. What would you do?

Mrs. Royce Loses Brother

Mrs. Samuel Royce, of this county, and other relatives have the sympathy of their friends in the loss of her brother, A. B. Hampton, who died at his home near Indian Fields, Clark county, and was one of that county's most prominent farmers, having acquired about 3,000 acres of good land. It is told of him that at one time, while he was living in the mountains, he had sent some logs down the river to Frankfort, and was on his way home on foot, carrying his log money, when he was attracted by a sale of land near Indian Fields. He bid on the land, and because of his travel worn appearance, the sale was stopped until was found he had the money in his "jeans" to pay for his purchase. This was the beginning of his fortune, which by thrift and honest dealing he had built up a competency. Mr. Hampton was born in Carter county, Tenn., being a son of Major H. B. Hampton, and would have been 82 years old had he lived until Saturday. He is survived by his widow, who was Miss Rebecca Flannery, of Virginia. Although they were childless, they have reared many orphan children and done much philanthropic work among the poor. Mr. Hampton is also survived by another sister, Mrs. C. D. Benton, of Springfield, Mo. Among other relatives that he has residing in this section are Walter Hampton and the Misses Hampton of the Boonesboro pike, who are his nieces and nephew, and Albert Stevens and Miss Etta Stevens of Boonesboro.

Isn't this a reasonable profit?

It is what Swift & Company earned in 1918.

2 cents on each dollar of sales—only a fraction of a cent per pound—was too small to have any noticeable effect on prices.

11% on investment (capital and surplus) means only fair returns to the 25,000 shareholders; they received 8% dividends in 1918.

Auto Collides With Calf; Mrs. Bagley Severely Hurt

Mrs. R. L. Bagley, wife of a prominent farmer of the southern section of the county, was seriously cut about the head when a motor car which her husband was driving to town yesterday morning collided with a steer calf, and thrown against a fence on the other side of the road. The calf is said to have jumped suddenly in front of the machine, which Mr. Bagley was driving down a hill a few miles from Richmond, at the time. The car was hurled to one side of the road, and Mrs. Bagley was thrown through the windshield, shattering it,

and cutting her about the head. She was taken to the home of friends nearby and a physician summoned and her injuries dressed.

END TERROR BY ZEPPELIN RAIDS

Explosive Bullets Fired by British
Airmen Conquer Hun
Airships.

HAD OWN WAY FOR WHILE

Until Invention of New Weapon Ger-
man Gas Bags Roamed About
Over England at Will,
Weather Permitting.

London.—Britain conquered the
Zeppelins with explosive bullets. Un-
til the invention of this weapon Zepp-
elins roamed about over England at
will, weather permitting. The first
air raid upon London was by Zepp-
elins. This was May 31, 1915, and
until the explosive bullet came into
defense work the Germans came over
in their rigid gas bags as their pleas-
ure dictated. The British had no
Zeppelins then for counter-attack and
the airplanes they possessed were
helpless, because they could not fly
high enough quickly enough.

On one occasion when Zeppelins
were above the city British aviators,
as usual, went up to engage them.
But the British flyers could only at-
tain 15,000 feet altitude. There they
sat, looking up at the monsters far
above them, the machine guns of the
airplanes being as useless as toy pis-
tols. That is the real reason why
Britain built fast, high-climbing air-
planes. She had to outdo the Zepps.
She won, soon having airplanes that
could reach 20,000 feet or more, above
which distance Zeppelins could not
work effectively. These high-climbing
fighting planes, together with the ex-
plosive and incendiary bullets, made
England too hot for the airing of a
Zepp.

Lead Zeppelin Raids.

The leader of the Zeppelin raids on
London was Commander Peter
Strasser, who had unbounded hatred
for England. He had an iron nerve
and in Germany was regarded as an
authority on air raids against Eng-
land. He met his death on August 4,
last year, in the Huns' largest Zepp-
elin, off the English coast. An ex-
plosive bullet ended his journey.

To keep out of range of ordinary
anti-aircraft fire the Germans en-
larged their Zeppelins from 750,000 to
about 2,500,000 cubic feet, thus in-
creasing ascent abilities. But this
was quickly countered by improved de-
fense methods in Britain. The Zepps
carried about 4,500 pounds of bombs
each.

The first time the Zeppelins visited
London the people took it as a great
joke, flocking to the housetops to see
the incendiary bombs that were
dropped. Only six persons were killed
in the initial raid, although 90 incen-
diary bombs were heaved overboard.

The men in the later type of Zepp-
elins were provided with parachutes.
The captain and navigating personnel
were supposed to jump from the for-
ward gondola and the crew, generally
about twenty men, from the engine
and midship cabins. In the face of
disaster, however, there is no record
of any member of a Zeppelin crew
having saved himself, by this means,
either because the machine became too
quickly enveloped in flames or fell too
rapidly for the parachute to open out.

The Zeppelins usually set out from
Germany in the morning and timed
their arrival off the English coast
about dusk. The fate of Strasser's
ship was sealed because he arrived
too early, being spotted above the
horizon by a British lookout.

Penetrate Heart of England.

There evidently was no concerted
action among the Zeppelin raiders,
each acting more or less independ-
ently. They selected targets upon
which they could unload their bombs
uninterruptedly, if possible, and then
flee. They often penetrated into the
heart of England.

Six Zeppelins were brought down in
England, the first by Lieut. Leeke
Robison at Cusley. He was awarded
the Victoria Cross. The incendiary
machine gun bullets which he used
had been issued for the first time only
the day before the raid, September
2, 1916. The second Zeppelin was
brought down in flames at Great Bur-
sted. Out of 13 Zeppelins which raid-
ed England October 19, 1917, the Ger-
mans lost four. One descended al-
most intact near Mersea Island, at
the northeast corner of Essex. An-
other was brought down in flames
near Potter's Bar, and two other Zepp-
elins were forced to land, but the
crews destroyed their ships.

After Germany saw the futility of
sending Zeppelins against explosive
bullets (and Zeppelins could not be
protected against that device) she in-
stituted Gotha raids.

But Britain beat her at her own
game.

Beware of Stocking Bank.

Tarentum, Pa.—Grocers who feared
thieves and had little faith in their
strong boxes were sometimes known
to hide their receipts overnight in the
beans, but it took a local man to dis-
close that dry goods merchants some-
times use stockings for the purpose.
As usual, the stocking or a bank
proved a failure. The store doors
were thoroughly searched and the
receipts were found in a small box
under the counter.

Taft Talks To Americans

That William Howard Taft is the biggest republican in this country and is far more interested in the real welfare of the country than some mere partisan advantage has been well illustrated a number of times during the war. With certain republican leaders now attempting to foment dissatisfaction with the work of the Peace Conference, even before the President tells the country the inside story, Taft again shows just how big a man he is. Speaking at a luncheon at San Francisco yesterday, he said this, which is well worth reading by many Americans who can see nothing good except through a partisan port-hole:

"The gentlemen in the Senate who are setting out to defeat this League of Nations are those I wouldn't trust over night. They are citing the constitution as an argument against it," continued Mr. Taft. "I revere and worship that great instrument, and it is a new story to me if the Constitution prevents this people from playing their part in bringing peace and order and happiness to ourselves and the other peoples of the world. This is not a political question, God forbid. I am glad President Wilson went to Europe, because he went bearing a promise of a League of Nations. The application at this time of the doctrine of avoiding entangling alliances is reactionary to the extent of delaying world peace 100 years. The question at this time is whether the whole great plan of the League of Nations is to be defeated because we can't get a two-thirds majority of our Senate for its ratification."

WIPING OUT ALL TRACES OF WAR

Thrifty French Already Cleaning
Up Battle Ground to
Plant Grain.

TASK MOST DIFFICULT ONE

Removing of Barbed Wire Entanglements is No Easy Matter—Narrow Gauge Railways Being Torn Up and Trenches Filled In.

Paris.—Eradication of all traces of the 52 months' war has already begun everywhere along the old stationary front which marked the line of the opposing armies since the inception of a war of position.

Barbed wire entanglements are being torn up, trenches are being filled in, camouflage is being taken down, narrow-gauge railways removed, and shell dumps and other depots for material being transported away.

This is the first time that any field fortifications have been permitted to be touched by the civilian population. Even after the Germans had been driven from the Chateau Thierry region south of the Marne to north of the Vesle, the military authorities refused to permit barbed wire to be taken up or earthworks filled in.

In most cases this work is being done by civilians, but everywhere with the release of the older classes of French soldiers and the numerous reformers—wounded discharged from the army—there are enough men familiar with field works to supervise the removal of them.

Difficult Work.
It is no easy matter for the novice to pull up barbed wire, and in places, particularly in the Juvigny region north of the Aisne, where the Thirty-second division fought with General Mangin's superb Tenth army and won for themselves the sobriquet of "The Tigers," the entanglements cover hundreds of acres; the belts being hundreds of yards in depth. This wire dates back from September, 1914, and is rusty and dangerous to handle, owing to the presence of tetanus microbes. The newer "giant German wire," the strands of which are a quarter of an inch thick and which bristle with barbs, is equally hard to remove.

The old wide trenches which were in vogue earlier in the war before the development of the minenwerfer as an accurate piece of ordnance, are hard to fill in, as their parapets have been washed away by rains and blasted to bits of shellfire. They are like great ditches, furrowing the earth in every direction. The newer, narrower trenches, shored with timber and provided with duckboard floors are easier to fill in. The thrifty French first pull out the shoring and let the rain act on the trenches for a couple of weeks in which time they invariably fall in, then they shovel over the top, smoothing it off.

No attempts are made to fill in the dugouts, the entrances merely being boarded up and covered over. In many of these German dugouts there are infernal machines and man traps likely to explode when the first person enters. Loose boards on the stairs or bits of string stretched across the entrance set off explosives. In many other dugouts there are corpses of friends or foes, killed underground by bombs hurled down the exits.

All roads in the zone where the opposing armies have swayed back and forth are lined with fox holes, as the American doughboys call the tiny shelter caves they are taught to dig with bayonets and mess kits, and which provide such wonderful shelter against shrapnel. Everywhere in the belt of terrain marking the extreme limits of the passage of the fighting troops there are endless rows of these fox holes dug into the ditches beside the roads. They tell the silent tales of bodies of troops on the march spied out by enemy airplanes or captive balloons and caught under concentrated fire by many batteries. Then the men are ordered to take cover, and since there is none to take they must improvise their own shelter.

Dig in Quickly.
It is a remarkable sight to see how fast a soldier can dig a cave that will shelter his body with no implements but a bayonet and mess kit. They loosen the earth with the bayonet and scoop it out with the big, long-handled tin cup, sometimes working with the skillet in the other hand.

Only light, Decauville railways are being taken up, all standard gauge lines which have been laid since the war remaining in position until such time as the administration determines what shall be done with them.

Few pieces of artillery remain in their emplacements, nearly all of those which were overlooked in capture during attacks having been dragged out of their pits and placed in the public square of the nearest French town or village. But there are still hundreds of thousands of live shells, hand grenades and millions of rounds of small arms ammunition lying about everywhere. The earth is pitted with holes made by "duds" which may explode the first time the farmer's plow strikes against them.

Despite that, however, the thrifty French are cleaning up their country, preparing for the sowing of crops next spring.

Dinner For Ensign McCown

At Fort Myers, Fla.

Mr. and Mrs. G. F. Ireland entertained Saturday evening with a most delightful dinner party at their home at 861 Second street, in compliment to Ensign T. C. McCown, of the U. S. navy, stationed at Hampton Roads, who has been released after 18 months service. Ensign McCown is here for a most deserved vacation, with his parents, Mr. and Mrs. A. K. McCown, who are regular winter visitors to Fort Myers from Richmond, Ky.

Prominent among the guests was Lieut. Aaron Coates, of Carlstrom Field, who is a boyhood friend of Ensign McCown, and who came down especially for the event, the occasion being the birthday of his friend. The table presented a most attractive appearance, with the colors red, white and blue, used for decorations, and a miniature aeroplane suspended from the chandelier. The place cards were flags. A most delicious five course dinner was served, the piece de resistance being roast wild turkey.

Those present besides the guest of honor, his parents, and friend, were Mr. and Mrs. Nelson Gay, of Winchester, Ky.; Mr. and Mrs. Harvey Chenault, Mrs. T. D. Chenault, and

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

Souvenirs From Germany

A boxful of souvenirs from Germany has been received by Ed and George Baxter of this city, from their brother Tom Baxter, who is with the American Army of Occupation at Coblenz, Germany. Included in the curiosities are four helmets, one that of an officer, it is presumed, for it of polished nickle brass, with the Prussian eagle on the front, two caps and a lot of belt buckles, a belt, and other such trappings. The young soldier had packed them in a box and parcel posted them over and there were welcome souvenirs and have been viewed with interest by many.

Here's A Gentle Laxative For Elderly People

A daily free movement of the bowels becomes a serious problem as you step from middle-life into old age, and much dependence can no longer be placed on nature herself. The bowels find artificial aid necessary.

The stronger the physique, as old people soon learn, the greater the contraction of the bowels thereafter, and so the wise purposely avoid salt waters, pills and other harsh purgatives. Many have learned to place absolute reliance on the gentle but positive action of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin.

It produces an agreeable movement as nearly natural and free as high pharmaceutical skill can make it. Thousands use it regularly, in the small dose prescribed, and keep themselves in fine health and good cheer, and entirely free from constipation.

The druggist will refund your money if it fails to do as promised.

PRICE AS ALWAYS

In spite of greatly increased laboratory costs due to the War, by sacrificing profits and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 26 years. Two sizes—50c and \$1.00.

Dr. Caldwell's SYRUP PEPSIN The Perfect Laxative

FREE SAMPLES—If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. B. Caldwell, 468 Washington St., Monticello, Ill. If there are babies at home, ask for a copy of Dr. Caldwell's book, "The Care of Baby."

Bower Becomes Agent Here

W. H. Bower has been appointed agent for the L. & N. railroad at Richmond to fill the vacancy caused by the death of the late Jonas Rucker. Mr. Bower has represented the railroad at Berea for many years, and it is understood, that in point of seniority, he outdistances any others who have been mentioned for the place. He is said to be exceptionally well qualified for the position, and will be given a cordial welcome to Richmond.

It has been rumored for several days there are to be a number of changes among the local operators, one or two being switched to points further down the line.

No Great Act of Heroism Required

If some great act of heroism was necessary to protect a child from croup, no mother would hesitate to protect her offspring, but when it is only necessary to keep at hand a bottle of Chamberlain's Cough Remedy and give it as soon as the first indication of croup appears, they are many who neglect it. Chamberlain's Cough Remedy is within the reach of all and is prompt and effectual. jan

YOUNG BOURBON FARMER DIES

Friends and relatives here were saddened at the news of the death at Austerlitz, in Bourbon county, of Thomas H. Clay, who was one of the wealthiest young farmers of the blue grass, his farm of 500 acres on the Paris pike being one of the most scientifically conducted in the country.

He was a crack shot and his home was filled with trophies of his skill. He was widely interested in the preservation of fish and game, and was appointed two years ago by Governor Stanley as a member of the State Fish and Game Commission.

Happy Mothers Prepare in Advance

A Wonderful Influence For Expectant Mothers.

Mothers for over half a century have used with the utmost regularity the time-honored preparation, Mother's Friend, before the arrival of baby. Here is a truly wonderful penetrating application for the abdomen and breasts. It softens and makes elastic the muscles, rendering them pliant to readily yield to nature's demand for expansion. By its use the anxious months of pregnancy are made comfortable. The usual wrenching strain, bearing-down and stretching pains are counteracted. The system is prepared for the coming event, and the use of Mother's Friend brings restful nights and happy anticipation for the nerves are not drawn upon with the usual strain.

By its regular application the muscles expand easily when baby arrives the time is less at the crisis and naturally the pain and danger is less.

Mother's Friend is on sale at every drug store. It is for external use only. It is absolutely safe and wonderfully effective. Write the Bradford Regulator Company, Dept. C, Lamer Building, Atlanta, Georgia, for their interesting Motherhood Book, free to users of Mother's Friend, and obtain a bottle of Mother's Friend from the drug store and begin this grateful treatment.
